

HarshBhakre

My Aim

I'm looking to build a career as a Web Developer and UI/UX Designer, where I can continuously learn, grow, and explore the latest technology trends. My goal is to work on innovative projects that push boundaries and contribute to advancements in the field. I'm passionate about creating dynamic, efficient, and user-friendly web applications while enhancing my skills to stay ahead in the ever-evolving tech world. For me, it's all about growing with every challenge and crafting experiences that truly stand out.

Skills

Languages I speak

HTML, Css, JavaScript, Intermediate Java, Basic Python, Basic C & C++.

FrameWorks I Know

ReactJs, Angular, Gsap.

Tools I Know

Figma, Vs Code, IntelliJ IDEA

Work History

Research & Data Management Intern - ReachRocket

At Reach Rocket, I managed data for influencer marketing and honed my skills in HTML, CSS, JavaScript, and communication through hands-on tasks and daily interactions.

Technical Intern - Info-Origin

During my 3-month internship at Info-Origin, I gained hands-on experience in SQL, Angular, and Spring Boot. I also worked on improving my technical and soft skills. This experience gave me the confidence to tackle real-world projects effectively.
